SCHOOL MEETING.

Notice is hereby given that the annual meeting of District No. 9, Benton county, Oregon, will be held in the school house, in said district, in the city of Corvallis, on Monday, the 1st day of March, 1880, at 1 o'clock, P. M. for the purpose of electing one director to serve three years, also one director to serve one year, (to fill a vacancy,) and one clerk to serve one year; also for the purpose of levying a tax of three and one-half mills on a dollar upon all the real and personal property in said district, to defray the expenses of a free school for the current year, and to transact any other business that may come lawfully before the meeting.

S. L. SHEDD, Clerk Dist. No. 9.

The above is a move in the right direction, and should meet with the hearty approval of all who feel an interest in promoting the welfare of our public schools. Corvallis, we believe, is the only town in the valley that has not abandoned the tuition system, and adopted the plan of maintaining the schools by a direct tax upon the property of the district. The latter method is the only one by which the schools can be made what they are designed to be—free. All property owners in the district, including widows, are entitled to vote at the school meeting. We trust the directors of the south district will follow the example of District No. 9.

CHIEF ENGINEER.

At the regular meeting of Corvallis Hook and Ladder Co. No. 1, held last Monday evening, Mr. Nick Baesen was unanimously nominated for Chief Engineer of the Fire Department. The following resolutions were adopted:

Resolved, That Young America Engine Co. No. 1 is hereby cordially requested to endorse the nomination of Mr. Nick Baesen, of this company, for Chief Engineer, and to nominate a candidate from that company for Assistant Chief Engineer.

Resolved, That the Secretary is hereby directed to transmit a copy of the above resolution to the President of Young America Engine Co. No. 1.

AN OLD FRIEND.—D. H. Stearns, an old time Nebraska friend, and now editor and publisher of the Daily Semi-Weekly and Weekly Bee, made a pleasant call last Friday. D. H. is a genial gentleman and a good judge of what constitutes a live newspaper, and spares neither time nor energy to make his publications not only readable, but highly entertaining and newsy, supplying a place in every household where they are read unoccupied by other publications of a similar character. Our Republican friends in this county, and, in fact, all over the state, would do well to patronize the Bee. They will get the simon pure doctrine of the party therefrom, and all the current news of the day carefully selected and arranged under appropriate heads. Mr. Stearns has overcome obstacles in the newspaper line on this coast that many, in fact most, would have shrunk from, but he, with a firm faith, and wholly undaunted by opposition and trials, has steadily gone forward with a light heart and an open hand, and has rose above all the influences that have operated against him, and to-day is proudly looking down from the eminence he has reached, and views with quiet satisfaction the broad field of usefulness that is opening out before him. As a live, energetic, far-sighted business man, he has few equals.

THE PLUMMER FRUIT.—In speaking of one of the many enterprises, of which our city boasts, the Albany Democrat has the following: Geo. W. Still, superintendent of the packing establishment of the Corvallis Fruit Company, in this city, is now packing immense quantities of the Plummer dried fruit for the English market. They are now at work on two and four pound paper boxes, which will be put up in fancy shape. We have tried the Plummer fruit and know that the difference between it and sun-dried is very great. It is a great pity that all of our surplus fruit is not worked up in that shape and thrown on the markets of the world.

REMOVED.—Mrs. L. A. Dennick has removed to the brickyard, just beyond the flouring mill. Any information relative to brick, can be had at Mr. S. A. Hemphill's, barn shop, here in town, or Mrs. D. at the yard. Persons in sending orders out, should be careful to state for what purpose needed—that no mistake be made in filling the orders. By keeping first-class brick, and by fair dealing, selling alike to all—she hopes to merit a share of the public patronage, in the future as in the past.

J. W. Rayburn, of this city, went to Dallas a day or two since on legal business. He came back with a smiling phis. We conclude, therefore, that he either pocketed good fees, or has planted the seed that will yield a handsome return in the near future.

O. E. Carter, only son of the editor of this paper, left very suddenly Tuesday morning. The cause of this sudden departure is unknown to the editor and editors of the GAZETTE office. In fact no one knew he was going. He left a letter on the table bidding Mrs. Vincent good bye, saying that he should be gone some time.

Rev. Mr. Chapman, pastor of the M. E. church in this city, called a few moments this week. Mr. Chapman is one of the most earnest, consistent christian workers in our midst, and is deserving a liberal salary. Why do not his church people wake up and attend to the pastor's temporal wants, a little more? The laborer is worthy of his hire.

THE WEST SHORE.—Mr. L. Samuel, of the West Shore, called last Wednesday. He was in town for the purpose of getting photographic views of some of our principal buildings, public and private, from which to make engravings for a forthcoming number of his paper, which will contain 160 pages of miscellaneous and statistical matter, and will be embellished with views from all the principal towns of the State.

A MUCH NEEDED CHANGE.—Much complaint is heard among all classes, in regard to the time of the departure of the West Side train for Portland. 4 o'clock is rather too early in the morning for the traveling public to be up. We hope that as soon as the road is ballasted properly, so that additional time can be made with safety, the arrival and departure of trains will be at more reasonable hours. The Superintendent was over the road last week on a tour of inspection, and will, no doubt, see the propriety and necessity of the change above indicated.

NEVER TIRER.—Al Pygal and Alex. Campbell, connected with the City Dairy Company, are the most indefatigable workers I have ever seen. In the face of rain, snow, and the dark, drizzly days, when men and beast should be housed, these two are to be seen. Boys, you deserve success, and as the Gods help those who help themselves, your future is assured. Steady, sober and industrious as these men are, deserve the patronage of the public they so faithfully serve.

Mr. N. Newton, agent for Benton county, is now canvassing for subscribers to the new and revised edition of the above excellent work. It is highly recommended by distinguished educators and leading newspapers, and is considered by all to be one of the most useful books that was ever laid upon the counting-room desk or drawing room table.

The Death-rate of

Our country is getting to be fearfully alarming, the average of life being lessened every year, without any reasonable cause, death resulting generally from the most insignificant origin. At this season of the year especially, a cold is such a common thing that in the hurry of every day life we are apt to overlook the dangers attending it, and often find too late, that a Fever or Lung trouble has already set in. Thousands lose their lives in this way every winter, while had Boecher's German Syrup been taken, a cure would have resulted, and a large bill from Doctor been avoided. For all diseases of the Throat and Lungs, Boecher's German Syrup has proven itself to be the greatest discovery of its kind in modern times. Every Druggist in this country will tell you of its wonderful effect. Over 950,000 bottles sold last year without a single failure known.

There is an advertisement in our columns to which we take much pleasure in referring our readers, because we believe in it and can conscientiously and heartily recommend it. We refer to Hall's Hair Renewer. We remember many cases in our midst of old and middle aged people who formerly wore grey hair, or whose locks were thin and faded, but who now have presentable head pieces, and with no little pride announce to their friends that they haven't a grey hair in their heads. It is a pardonable pride, and the world would be better off, if there was more of it, for when the aged make themselves attractive to others they are more certain to win and retain the esteem and respect to which a burden of well spent years entitles them. Try Hall's Hair Renewer if age or disease has thinned or whitened your locks, and you will thank us for our advice.—*Pan-Handic News, Willburg, W. Va.*

The Northern Pacific Railroad.

Much interest is felt by our people as to the final location of the Western Division of the road, but whether it comes down the Columbia River or goes across the Mountain to Puget Sound, the supply of Oregon Kidney Tea will not be effected. Enough was gathered last fall to cure every case of Backache or Kidney Disease in Oregon, and it will do it too.

ANOTHER WARNING.

A disordered liver is frequently caused by worry and trouble, overwork, the use of tobacco, intense study, hard drinking, immoderate eating, indolence, fast living, late hours, licentiousness, etc., etc., and undoubtedly the best remedy is that standard medicine, Emil Frese's Hamburg Tea taken as occasion requires either with or without medical advice. But unless you discontinue the evil that brought about your diseased liver, you have no right to look for more than temporary relief from your troubles. Be warned ere it is too late, and try the medicine we recommend.

Sad Hayee is Created

Among the tenants of the month by allowing impurities to collect upon their surface or in their intestines, SOZODONT removes every vestige of tartar from the teeth, and renders their premature decay impossible. It not only imparts to them whiteness and vigor, but communicates hardness and rosinness to the gums. The breath acquires a most acceptable fragrance from its use; it is a purely botanic liquid, and it may be relied on to accomplish its beautifying effects without injuring the enamel like a gritty tooth paste.
